

Independent Course - Level 3N (12 Hours)

Price: \$720.00

Short Description

Know the theory and the safety rules for jumping, Land a basic jump.

Description

Intermediate Course Level 3L + Know the theory and the safety rules for jumping, Land a basic jump.

Goals

Jump transition

This advanced transition is a stylish one. To make a jump transition you want to steer your kite from 11 to 12 or from 1 to 12 slightly faster than you would when doing a basic transition.

Before the kite reaches 12 o'clock pull the bar in and edge upwind at the same time. Pull in your legs a bit and jump. Then redirect the kite quite hard in your new direction of riding.
